Health score decline or critical engagement signals

UTILITY	PRIMARY SIGNAL	HEALTH
● Cascade Power Auth.	Sponsor change · ↓ events	41
● Meridian Grid Svcs.	↓ research portal 62%	48
● Lakeshore Energy	No QBR in 9 months	52
● Trillium Power Co.	↓ T&D attendance	58
● Granite State Util.	Champion departed	61

AI EXECUTIVE SUMMARY

Portfolio health improved 3 points this week, driven by stronger event attendance in the Generation and Renewables programs. Risk is concentrated in 11 utilities — Cascade Power and Meridian Grid both show a compounding pattern of sponsor change plus declining research portal use, the strongest historical predictor of non-renewal. Expansion momentum is highest in Asset Management, where 8 utilities now show readiness scores above 80. Recommended focus: stabilize Cascade and Meridian this week, advance the Northshore Hydro expansion conversation, and validate the 4 borderline health scores flagged on page 2.

Health & Risk

Week of June 8, 2026 · Prepared for Patricia & Hailey · Page 2 of 5

Top at-risk utilities with the specific signals driving the score — every signal traces back to source data.

● Cascade Power Authority	41 /100 -14
• Event attendance ↓ 58% (last 90d) 3 of last 7 events missed	Event Platform
• Research portal logins ↓ 71% Avg 1.2/mo vs 4.1 baseline	Research Portal
• Executive sponsor changed VP Operations departed Apr 2026	HubSpot
• Program participation: 2 → 1 Withdrew from T&D working group	Mixpanel
● Meridian Grid Services	48 /100 -9
• Research portal use ↓ 62% Last login 47 days ago	Research Portal
• Webex / Teams meeting cadence ↓ 0 touchpoints in last 30d	Webex · Teams
• Reduced program participation Active in 2 of 5 enrolled	Event Platform
● Lakeshore Energy	52 /100 -6
• No QBR in 9 months Last touch: Sept 2025	HubSpot
• Event attendance ↓ 34% Skipped Generation Summit	Event Platform
• Research downloads flat No new report access 60d	Research Portal
● Trillium Power Co.	58 /100 -4
• T&D program attendance ↓ 41% 2 of last 5 sessions	Event Platform
• Champion engagement steady Strong relationship signal	HubSpot

AI RISK PATTERN

Cascade and Meridian share the highest-confidence churn pattern in our backtest: sponsor change followed by ≥60% drop in research portal use within 90 days. Recommend executive outreach this week — historical recovery rate is 67% when contact occurs within 14 days of pattern detection.

AI OPPORTUNITY INSIGHTS

Asset Management has 8 utilities with readiness above 80 — the highest cluster we've seen this fiscal year. Northshore Hydro is the clearest first move: their team has attended 6 of the last 7 T&D events and downloaded the asset lifecycle benchmark twice in 30 days. Two value-realization laggards (Stations Engineering, Cyber Security) share a common signal: members enroll but don't access the working-group materials in the first 60 days. Recommend a structured onboarding sequence for new program enrollments.

Relationship Intelligence Brief

Week of June 8, 2026 · Prepared for Patricia & Hailey · Page 4 of 5

Cascade Power Authority

Pacific Northwest · Member since 2017 · Enrolled in 4 programs · Next touchpoint: Thu 10:00 AM

HEALTH 41 · AT RISK

Down 14 pts in 90 days

30–60 minutes of account preparation reduced to a 90-second briefing.

STAKEHOLDERS • Maria Chen — VP Engineering (new champion, 4 mo) Strong T&D engagement · attended 3 of last 4 events • David Park — Director, Operations Quiet for 47 days — primary risk signal • (vacant) — VP Operations Former exec sponsor departed Apr 2026	RECENT ACTIVITY (30 DAYS) • 3 missed events Generation Summit, T&D forum, Power Quality clinic • Research portal: 2 logins Both by Maria Chen · viewed reliability reports • 1 Teams thread Renewal timing question — unanswered 5 days
RISKS • Sponsor vacuum at exec level VP Operations role unfilled since April • Withdrew from T&D working group Historically a leading churn signal • Renewal in 4 months Decision committee not yet identified	OPPORTUNITIES • Power Quality program fit (readiness 84) Maria Chen's team downloaded the PQ benchmark twice • Peer cohort referral 3 PNW utilities in their cohort renewed at premium tier • Asset lifecycle benchmarking Aligns with their stated 2027 capital plan
SUGGESTED TALKING POINTS • Acknowledge the leadership transition and offer to brief a new VP of Operations. • Lead with reliability data — three PNW peers achieved 18% outage reduction through Power Quality. • Frame Asset Management as direct support for their 2027 capital plan, not an upsell. • Avoid renewal pricing in this conversation — sponsor isn't identified yet.	→ RECOMMENDED NEXT ACTIONS [] Schedule exec intro with Maria Chen <i>This week · Patricia</i> [] Send PNW reliability case study <i>Today · CS team</i> [] Invite David Park to Power Quality clinic <i>Next 14 days</i> [] Build renewal stakeholder map <i>Before July 1</i>

What Matters This Week

Week of June 8, 2026 · Prepared for Patricia & Hailey · Page 5 of 5

The 5 actions across the CEATI portfolio that move the needle this week — ranked by impact and urgency.

01	● Re-engage Cascade Power Authority At-risk Renewal exposure WHY Health score dropped 14 points; sponsor change + research portal decline matches our highest-confidence churn pattern. Renewal in 4 months.	OWNER Patricia DUE This week IMPACT High
02	● Introduce Asset Management to Northshore Hydro Expansion Warm signal WHY Expansion readiness 92 — the strongest signal in the portfolio. Team has attended 6 of 7 T&D events and downloaded the asset lifecycle benchmark twice.	OWNER Hailey DUE Within 7 days IMPACT High
03	● Prepare Summit Energy Co-op QBR QBR prep Expansion WHY QBR scheduled Jun 18. Cyber Security readiness at 88 — clear opportunity to introduce the program during the review.	OWNER Patricia DUE Jun 16 IMPACT Medium
04	● Investigate declining T&D program attendance Program signal Portfolio-wide WHY T&D attendance down 18% across 6 utilities in 60 days — possible content fit issue. Pattern detected before it impacts individual health scores.	OWNER Hailey + Program Lead DUE Next 14 days IMPACT Medium
05	● Validate 4 borderline health scores Quality check WHY Granite State, Trillium, Cedar Creek, and Harbor Light scored between 58–62. Human review recommended before automated outreach triggers.	OWNER Patricia DUE Friday IMPACT Low
